Department Description

The Industrial Commission was established in 1918 to ensure that Idaho's Workers' Compensation Law is impartially and efficiently administered. The commission encourages safe working environments, prompt and accurate benefit payments, timely dispute resolution, and quality vocational rehabilitation services. The commission maintains files of all industrial accidents and illnesses and keeps records of employers and their workers' compensation insurance companies.

The COMPENSATION PROGRAM includes benefits administration, employer compliance, fiscal, information systems, and the human resources section. Responsibilities of the Compensation Program include evaluating insurance carriers and employers wishing to become self-insured; enforcing the coverage requirements; and monitoring benefit payments. This program also funds the Logging Safety and Industrial Safety Programs at the Division of Building Safety. The Logging Safety Program seeks to improve safety in logging operations across the state. Industrial Safety provides inspections of state, school district, county and city facilities to ensure safe working conditions.

The REHABILITATION PROGRAM is a neutral party that supports a worker's medical recovery and assists in reducing their period of temporary disability resulting from an industrial injury. This program facilitates returning the worker to gainful employment at as close as possible to their pre-injury status and wage. The Rehabilitation Program is concerned with both physical and vocational rehabilitation with special emphasis on job placement. Consultants serve injured workers from eleven field offices across the state.

The CRIME VICTIMS COMPENSATION PROGRAM was established in 1986 to help offset the out-of pocket expenses incurred by innocent victims of crime. Benefits are paid only for costs such as medical and mental health care, lost wages, loss of support, and funeral expenses up to a maximum of \$25,000 per victim per crime. Property damages are not eligible. Funds are generated by surcharges on convictions or pleadings of guilt. Certain restitution and prison payment programs are also directed to the fund.

The ADJUDICATION PROGRAM consists of three commissioners appointed by the Governor who sit as a judicial body to hear and adjudicate disputes between injured workers and employers, provide judicial review of unemployment appeals from the Department of Labor, and render decisions on medical fee disputes. The commission also provides a mediation process that is available at any stage of the claim to assist parties in reaching a successful resolution of a dispute.

Video Conference System Includes \$18,000 one-time funding for a video conference system in Pocatello. This line item allows the Commission to link up with Boise and Coeur d'Alene offices reducing travel costs. Currently, staff travels from Boise to conduct hearings, mediations, provide training, and perform employee reviews. The Commission expects travel expenditures to the region to decrease by at least 60% and have a full return on investment in three years time. Agency Request 0.00 0 18,000 0 18,000 The Governor recommends this line item as requested. Governor's Recommendation 0.00 0 18,000 0 18,000 | Governor's Recommendation | 0.00 | 0 | 0 | 0 | 0 |
